

Reinforced Measures to Fight COVID-19

To make sure customers feel safe and are better able to enjoy their dining experience, we have put measures in place to prevent the spread of the novel coronavirus which causes COVID-19.

To all customers

We ask that you cooperate with the following measures to help us prevent COVID-19 infection.

Sanitizing Stations

Please sanitize your hands when entering the restaurant.

Temperature Checks

We reserve the right to refuse entry to customers who do not feel well or who have fever of 37.5°C or over.

Face Masks Required

Wear a mask at all times except while you are eating. During conversation, keep voices low.

When taking food from a large family-style dish, use serving utensils only. Multiple diners should not share the same drink.

Steps we are taking to protect customers

Staff are taking the following measures

Frequent Cleaning and Disinfecting

Tables and other public areas are frequently cleaned and sanitized.

Face Masks Required

All staff wear masks.

Employee Health Monitoring

Staff are taking care of their own health by frequently washing their hands, taking their temperatures, and checking for any signs of illness.

Improved Indoor Ventilation

The facility is kept ventilated.

Pre-booking Options

To prevent close contact between customers, we take steps such as taking reservations ahead of time and controlling the number of customers in the restaurant.

Physical Distancing

To keep customers distanced from each other, we have put partitions between seats and reduced the number of seats available.

As far as possible, we will do our best to serve food in single portions and avoid large family-style servings.

Along with the above measures, we follow the instructions in "Gunma Safety Guidelines for Restaurants."
